What matters most to the people accessing our services?

We spoke to a group of the people we support and asked them what they thought were the most important skills and qualities for a Horton colleague in a support setting. The group agreed that soft skills were often more important than direct experience. The people we support are looking for someone **professional** and **positive**, who is **respectful**, **non-judgmental** and **empathetic**. The group values staff that are both **good communicators** and **good listeners**, with the ability to **uplift** and **encourage** the people they support to meet their goals. With **patience** and **resilience**, our colleagues should **lead by example** and **‘walk the walk’**. With all the exciting activities we have in our services, **resourcefulness** and a **sense of humour** don’t hurt either!
