About the department

Fairmount accommodation and dispersed schemes such as RSAP and SHAP, in Bradford provide housing-related support for people who are experiencing a range of different circumstances. The service supports people with high levels of need, individuals who may have experienced ill health, poor mental health, drugs or alcohol challenges. There may have experienced periods of homelessness or have an unsettled lifestyle that puts them at risk of homelessness.

The team visits people, often in their own home, temporary accommodation, public place or our office. We provide a service that is male only accommodation. Working with people who may be socially excluded and have difficulty in accessing services. We enable people we work with to become 'Tenancy Ready' to maintain their tenancies and/or successfully move on into homes of their own. We encourage and support people to develop new and existing skills and gain confidence in their ability to manage their own homes independently.

We tailor support in consultation with the people taking into account their individual needs to achieve the best outcomes. We provide opportunities for people to explore and realise their own potential and build resilience through innovative diversionary activities, informal learning and volunteering.
